

I Was in Love

Born Without Bones

I was in love
And I didn't know it
So I didn't show it
I just turned and walked away
Now I am waiting to step outside
Into the cold, the breathless harmony
I was in love
And I didn't want it
Guess I never thought it
Would be something that I could believe
Now I'm finding my way to look inside
And unearth your distant memory
Cause there are times
It doesn't feel so bad
Someone to love who hates to see you sad
Oh I wasn't mad, I was just stuck in my head
Oh I wasn't made to be alone. But I was in love
And I didn't know it
So I didn't show it
I just turned and walked away
Cause there are times
It doesn't feel so bad
Someone to love who hates to see you sad
Oh don't be mad, or get stuck in that head
Oh you weren't made to be alone
But you were in love
And I didn't know it
Wish I didn't blow it
Or turned or walked away
Now you are waiting by someone else's side
In the cold, the breathless harmony
