

I Don't Want U Back

Børns

Well, it was last week
And you ran out of the house
I heard his sparkomatic
And when you came back
I felt you losing touch
I knew you couldn't be trusted

I should've known better
When you're coming to bed at 4 in the morning
Should've taken your eyes
Avoiding mine as a warning
And every time I ask you what's up
Baby, you're changing your story
Just so you know, that when you go
I ain't begging for you back

I sleep better than every
Night you were lying next to me
Don't wanna see your face
You need to face the facts
I don't want you back
I don't want you back

Another year passed
Another Friday night
You showed up at the disco
And when we caught eyes
The room started to spin
Ooh, and my heart nearly busted

I should've known better
But the liquor got me thinking I miss ya
Should've taken two steps back
But I wanted to kiss ya
And every time you flash those eyes
You make me reminisce ya
You're looking fine but I'd be lying
If I said I want you back

I sleep better than every
Night you were lying next to me
Don't wanna see your face
You need to face the facts
I don't want you back
I don't want you back
I don't want you back
I don't want you back

The bigger the lies the harder they fall
The hotter the fire the faster the love is gonna burn up
The hotter the fire the smoke and the mirrors
It's clear I'm better off without ya

I sleep better than every
Night you were lying next to me
Don't wanna see your face
You need to face the facts

I don't want you back
I don't want you back
Heartbeats are made of honesty
And all this time
Wasn't just you and me
It's sad to say, I'm glad you left
I don't want you back
I don't want you back
I don't want you back
I don't want you back
Oh, I don't want you back
