

# Man

Børns

Hello from the mountain  
From a gods eye view  
Oh but to sleep in the lowlands  
Where I dream best with you  
Morning from the ocean  
Beneath a summer moon  
Oh but all I want is to dance in the fountains  
Where I move best with you

If the world's gonna end  
I wanna be your friend  
When the lights go dim  
I wanna be your man  
Tell me what is heaven  
If our souls are split in two  
I wanna be your man  
I wanna be your man

Radio radio sing  
Till the stars burn out  
Oh I get lost in the static  
When I hear your sounds  
Over and over again  
I lose my sight  
Oh but it's so automatic  
When I see your light

If the world's gonna end  
I wanna be your friend  
When the lights go dim  
I wanna be your man  
Tell me what is heaven  
If our souls are split in two  
And what is heaven  
If my spirit's without you  
I wanna be your man  
I wanna be your man

If the world's gonna end  
I wanna be your friend  
When the lights go dim  
I wanna be your man  
Tell me what is heaven  
If our souls are split in two  
And what is heaven  
If my spirit's without you  
I wanna be your man  
I wanna be your man
