Baby I Believe In You

Bosson

Baby I believe in you
Baby I believe in you
Baby I believe in you
Baby I believe in you

In your eyes, I still see
A little spark of what you used to be
You try hard to find a smile from me
I can feel you're in pain
You try to learn to love your life again
You feel lost and alone but you're not to blame

Baby I believe in you

When they take your wings, when you wish to fly
Baby I believe in you
When they break your heart with a made up line
Baby I believe in you
When your eyes still hurt from the rivers you cried
Baby I believe in you
When you try your best and your tears run dry
Baby I believe in you

If your life is not fair
And they are shouting at you everywhere
Or your heart is lost and you're in despair
Find your dreams, they're out there
And you can do it, you can make it there
Don't forget that you're loved and that someone cares

Cause baby I believe in you

When they take your wings, when you wish to fly
Baby I believe in you
When they break your heart with a made up line
Baby I believe in you
When your eyes still hurt from the rivers you cried
Baby I believe in you
When you try your best and your tears run dry
Baby I believe in you
Baby I believe in you
Cause baby I believe in you

I believe...
Baby I believe in you
Baby I believe in you
Cause baby I believe in you
When your eyes still hurt from the rivers you cried
Baby I believe in you
When you try your best and your tears run dry
Baby I believe in you
