

Falling For U

Bosson

I am falling in you
I am falling in you

It's one of those moments
In life when you've got to take a chance
It not come back to you twice
So I why I trust inner sense
I used to play so hard to get
I guess I did not understand
But I don't want to regret
So I'm tell you where I stand

I am falling in you
And I've finding got something to believe in
I am falling in you
And I am not afraid to show what I feel
I am falling in you
And I've finding got something to believe in
I am falling in you

This is a new experience
I've learned from my mistakes
I am ready to bear my defense and to do just what it takes
I don't know what you're thinking about me
I go all in and win this game
I don't know what the answer will be
But I hope you feel the same

I am falling in you
And I've finding got something to believe in
I am falling in you
And I am not afraid to show what I feel

I am falling in you
And I've finding got something to believe in
I am falling in you
And I am not afraid to show what I feel
