

## 1's & 0's

Boston Manor

I'm depressed not taking my meds  
I've grown numb from flashing lights  
They said I should keep my mouth shut  
I've been slowly hypnotised  
I am watched everywhere that I go  
I'm pretty anxious & I know that it shows  
The TV said I should get some help  
I wanna look different like everyone else

I swear to God I wouldn't do it  
But I'm doing my best just to get through it

I swear to God I wouldn't do it  
But I'm doing my best just to get through it

Keep chewing gotta swallow some more  
We smoked all the air 'til we burned through the floor  
The man on the moon's got a lot to tell you  
Everything's replaceable  
I get greedy cause it's what I do  
I usually only think about myself  
The TV said that I'm poor & ugly  
I wanna look different like everyone else

I swear to God I wouldn't do it  
But I'm doing my best just to get through it

I swear to God I wouldn't do it  
But I'm doing my best just to get through it

You don't wanna hear about my problems  
It's all my fault cause I went & got born  
Set it off

Set it off

I swear to God I wouldn't do it  
But I'm doing my best just to get through it

I swear to God I wouldn't do it  
But I'm doing my best just to get through it
