

Burn You Up

Boston Manor

Swallow your words and maybe some teeth as well
'Cause we let the wolf in but he never did a sheep well
How do you fit it in?
How do you fit it all in?
How do you fit it in?

Do you hate me?
Do I just burn you up?
Do you hate me?
I hope to god you hate me

Fingers crossed behind your back
You poisonous snake, who taught you to lie like that?
Just spit it out
You better get used to this 'cause I'm going nowhere
You better get used to this 'cause I'm staying right here

You're a mirror with no reflection
There's no end to your deception
There's blood on your hands, so wash it off
Just wash it off
There's blood on your hands, so wash it off

Fingers crossed behind your back
You poisonous snake, who taught you to lie like that?
Just spit it out
You better get used to this 'cause I'm going nowhere
You better get used to this 'cause I'm staying right here

You'd better get used to this
You'd better get used to this
You'd better get used to this
You'd better get used to this

Fingers crossed behind your back
You poisonous snake, who taught you to lie like that?
Just spit it out
You better get used to this 'cause I'm going nowhere
You better get used to this 'cause I'm staying right here

You'd better get used to this
You'd better get used to this
