

Dissolve

Boston Manor

I had it all
Whatever I want
Perfectly flawed
A symptom of my youth
Remember back then
Two thousand and ten
We could pretend
That we had nothing to lose

A little bit reprobation
A little bit hesitation
In need of education
Definite expectation now

Maybe they were right about me

I can change if you want me to yeah
I can be, whoever you need me to be
It's something you can hold me to
'Cause you can't stop something you caused
And the Stitches need to dissolve

At last I learned
I'm on the turn
So I emerged
With chemical burns
Don't do things that don't age well at least I don't lie anymore

I can change if you want me to yeah
I can be, whoever you need me to be
It's something you can hold me to
'Cause you can't stop something you caused
And the Stitches need to dissolve

A little bit reprobation
A little bit hesitation
In need of education
Definite expectation now

Maybe they were right about me
Maybe they were right about me

I can change if you want me to yeah
I can be, whoever you need me to be
It's something you can hold me to
'Cause you can't stop something you caused
And the Stitches need to dissolve

'Cause I can change if you want me to yeah
I can be, whoever you need me to be
It's something you can hold me to
'Cause you can't stop something you caused
And the Stitches need to dissolve
