

Tigers Jaw

Boston Manor

I'm sick of songs about breaking up with girls
Such an everyday occurrence I wanna sing something real
All my favourite bands are splitting up
And the ones that aren't, are starting to stop

And all the things I could have sung about anything else
But at least I'm being honest
And all the things I could have sung about anyone else
But I can't say that I mean it

I'm not one to judge, but it wouldn't be me
Songs about [?] fine with me
Call me ascetic but times have changed
Maybe for the better but I know who to blame

I know who to blame
I know who to blame
I know who to blame

And all the things I could have sung about anything else
But at least I'm being honest
And all the things I could have sung about anyone else
But I can't say that I mean it

Goodbye tigers jaw
I miss you Reuben even so they still make them like they used to
We're all, we're all, we're all alone
While I love the freedom we still out here alone
We're gone, we're gone, we start again
Cause there's no way that we could do something else instead

And all the things I could have sung about anything else
But at least I'm being honest
And all the things I could have sung about anyone else
But I can't say that I mean it
