

# One Moment From Disaster

## Boundaries

I cannot maintain everyone's expectations of me  
I am not your light, I am not your guide  
Only the product of life unrealized

Don't ask me for a fucking thing  
Cause that's all I can give consistently  
This is not an apology  
This is my declaration

A step from calamity  
One moment from disaster  
I don't know any better than you

I have simply come to terms with my own unrest  
There is no control to be had anymore  
This will all go on with or without me

I don't know what you want  
I don't know what you need  
But I know it's not me, it never will be

You will die and you will fade  
And I will continue in the face of your amity abstained  
In the company of none, I am my own priority  
Because I'm the only one that's not allowed to leave

My intentions are tragic  
My existence is an accident  
Don't make a habit out of thinking highly of me  
To trust and to love  
Is to concede our own human nature

Just because I'm here  
Doesn't mean that I'm not a failure

Whether or not you realize  
We could so easily survive each others loss  
Do not allow me to destroy you, because I will

Living in the fallout of affection's longing  
Just because you love me doesn't mean that I care

I didn't mean for this to happen  
I move on with complete lack of notion or intent  
But that isn't enough for anyone to give a fuck

No decency is owed  
No decency is owed  
I am not a person  
I am your vessel

Fill me whole  
Fill me whole  
Fill me whole
