

# Home Wrecker

Bowerbirds

Somethings gotta give  
Somethings gotta break  
Now I think we all know now  
It ain't gonna be pretty  
Feels like we're standing on the lake  
And we're like "f\*ck, that's water"  
No one to count on  
No one to count out  
Losing touch with the land I used to dream about  
Searchin' for a reason to be proud and I'm coming up empty  
Home wrecker, home wrecker  
What's it all worth in the end  
Long as there's lives left  
There's lives to waste  
Imagine not my country man  
Home wrecker, home wrecker  
What's it all worth in the end  
Long as there's lives left  
There's lives to waste

Imagine not my country man  
Blew the candle out  
So many months ago  
Started looking to the sky  
To help us here below  
Only a meteor could save us all  
Home wrecker, home wrecker  
What's it all worth in the end  
Long as there's lives left  
There's lives to waste  
Imagine, not my country man  
Home wrecker, home wrecker  
What's it all worth in the end  
Long as there's lives left  
There's lives to waste  
Imagine, not my country man  
Not this same old dance  
Not these same old fools  
Now the seeds in the ground  
The change in the light  
And baby that's how  
Home wrecker  
Home wrecker
