

Out past silver city  
Racing through the night  
Steller regions skipping  
Me, I'm just on that high  
If I knew now what I knew then  
With that desert in my eyes  
There I might go missin'  
You're a lot like me inside  
Sittin' on a paper moon  
Like you own the night itself  
Take your time  
I hope you find your truth  
And never come back down to earth  
Sittin' on a paper moon  
Like you own the night itself  
Take your time  
I hope you find your truth  
And never come back down to earth  
Its been nearly twenty years  
Since I knew those bright eyes  
The sky was a shade bluer  
The sunset on fire

Down in New Mexico  
There I knew I got it right  
But the mind just has to wander  
And again i'm here tonight  
Sittin' on a paper moon  
Like you own the night itself  
Take your time  
I hope you find your truth  
And never come back down to earth  
Sittin' on a paper moon  
Like you own the night itself  
Take your time  
I hope you find your truth  
And never come back down to earth  
Sittin' on a paper moon  
Sittin' on a paper moon  
Sittin' on a paper moon  
Like you own the night itself  
Take your time  
I hope you find your truth  
And never come back down to earth
