Seems Impossible

Bowerbirds

Spent your whole life pushing forward, looking back
Spinning on the table with your hair pulled up
Staggering like a real princess, where's your hashtag?
Feelin' like a vision 'til you fall down flat
Seems impossible
But that's the only road
Tell me otherwise, what do we long for?
Dear lord, ain't nothing like the real world
Now dare we take a run for it
And see where we end up?
Seems impossible
But that's the only road
Tell me otherwise, what do we long for?
Left our home in the cool of night
Everything right in the world
Just the two old souls and the end of times
Everything else has to burn
Left our home in the cool of night
Everything right in the world
Just the two old souls and the end of times

Everything else has to burn
Show me more, show me more
Seems impossible
But that's the only road
Tell me otherwise, what do we long for?
Dear lord, ain't nothing like the real world
Now dare we take a run for it
And see where we end up?
Seems impossible
But that's the only road
Tell me otherwise, what do we long for?
Left our home in the cool of night
Everything right in the world
Just the two old souls and the end of times
Everything else has to burn
Left our home in the cool of night
Everything right in the world
Just the two old souls and the end of times
Everything else has to burn
Show me more, show me more
Show me more, show me more
Show me more, show me more
