## Friends O' Mine

## **Bowling For Soup**

Well it was ugly but we made it this far

Some have gone but I forget who they are

Now the hangovers are worse but we get through them fine

Sleeping late but were not lazy

Getting older but were still crazy

I'm so glad that I have these friends o mine

It started out at a coffee shop in a most unlikely town

And there were casualties but we made it out anyhow

We stuck together through the good and bad times

Pulp Fiction, Blazing Saddles, and Fast Times

I'm so glad that I have these friends o mine

And jobs girls and obstacles did all but break us down Night clubs and broken vans in every major town And I've got your back, you've got mine Like Johnny Cash said "I walk the line" And you can always count on me for one last beer

Were getting wider but not getting no taller
I know we've grown up just a little lot of time
Were sleeping late but were not lazy
Were getting older but were still crazy
I'm so glad that I have these friends o mine
So glad that I have these friends o mine
