She's a knock-out and she likes my favourite movies;  
David Letterman and Chinese Delivery.  
She loves Miller Light and watching Tyson fighting,  
Hanging with my friends and football on a monday night.  
But little did I know

She's morphing like a power ranger;  
Really sweet but just don't ask her  
What her favourite colour is if she knows you like brown.  
She says her favourite band is Zeppelin;  
Never heard "Stairway To Heaven".  
Whatever she likes that day depends on who's around.

Even I've got standards, but I just don't understand her.  
My soon to be history, never want to disagree girlfriend,  
With absolutely no opinion

Seven weeks ago we caught you two in the city;  
She saw my t-shirt she said Vertigo's her favourite song.  
I stood and watched her shaking;  
She tried to start a mosh-pit;  
She sang along all night - got every single lyric wrong.  
So sorry Bono.

Whatever she likes that day depends on who's around.

Even I've got standards, but I just don't understand her.  
And that's why she's my

I took her to Baskin Robbins for Cookies and cream and mint chocolate chip;  
She tore through a double scoop and then she said she was lactose intolerant  
.  
I like yo-yo's, so she likes yo-yo's.  
Why can't she just be herself and not do everything in life to please everyo  
ne else  
(to please everyone else).
