

You And Me

Bowling For Soup

C G F

All I needed was an answer

C G F

I didn't ask for nothin more

C G F

and she said, "just leave your jacket at the door"

C G

and we were locked inside

F

again it started here we go

If you can help me let me know.

C G F

So she asked if I could stay there

C G F

and I say we've been through this before

C G F

and she said, "just tell me, what do you expect here?"

C G

and we were locked inside

F

again it started here we go

you can hold my hand, but

C G

Don't go back on me

D F C

Just remember that it's gonna be alright

G F

and you'll see we can have it all

C G D F

Can't you see that I'm right here waiting, looking back at you

G G F

YOU and me, we've got nothing to lose. Oh yeah!

C G F

So she wraps me up inside her

C G F

and I knew we should not get that far

C G F

and she said, "just close your eyes and say you love me"

C G F

and we were locked inside, again.....

C G F

All I need to kill the pain

C G F

is for someone else to blame

C G F

and I've waited my whole life

C G F

I try to run but I can't hide
