

3 Moons

Boy & Bear

I wasn't found upright
Three moons and a Dam
To reason this hard is a hindrance

And when all that truth drops
Its the weak points that bend
But a truth that won't change is a truth to befriend

I guess it was always there, just shadowing me
But in a state of mind tied to the soul of night
It's hard to see

And now that the music is in
Its been a long time I know
Now that the anguish is letting go

He said, I'm proud and I'm crossed but I'm lying in a knot
But it ain't long enough
7 dolls and a wheel
Hmm...

My meditation of grieving
Don't let it use that time up
I'm working on a sequel

He said I'm bound and I'm crossed and I'm lying in a knot
But I've seen there's a solace when the light is all you've got
The light is all I've got
