Crossfire

Boy & Bear

One way
We gotta move sometimes
Walking through crossfire
Walking on back down under cover of night
Yeah
So much for respite
We gotta move sometimes
Yeah, yeah, yeah

Did I ever really get any of that right?
I'm beginning just to see the extent of time
That's gone by

And I don't think I feel lonely but there's loneliness inside of me
I don't think I feel lonely but the loneliness resides in me
I don't think I feel lonely but this time it's got the best of me
I don't think I feel lonely but this time it's got the best of me
I don't think I feel lonely but there's loneliness inside of me
I don't think I feel lonely but there's loneliness so close to me
I don't think I feel lonely but I

No choice
Walking on back down
We gotta move sometimes
Yeah, yeah, yeah

For so long I've seen nothing but hope in your eyes
But guess I'm in love with the fact that you're mine
If I only I had nothing to fight
For you I fight

And I don't think I feel lonely but there's loneliness inside of me
I don't think I feel lonely but the loneliness resides in me
I don't think I feel lonely but this time it's got the best of me
I don't think I feel lonely but this time it's got the best of me
I don't think I feel lonely but there's loneliness inside of me
I don't think I feel lonely but there's loneliness so close to me
I don't think I feel lonely but I

For you I fight

One way
Walking through crossfire
We gotta move sometimes
Yeah, yeah, yeah

Did I ever really get any of that right?
I'm beginning just to see the extent of time
That's gone by
That's gone by
And for you I fight
