

# Golden Jubilee

Boy & Bear

Come dancing in my garden  
In my haven, won't you dear?  
We've ripped down all the doors  
On what was no ordinary open field  
See I sit alone, in my home

We were old enough to see  
That the gods were spinning roses  
Down from golden jubilee  
I do believe that something's happening to me

Must be something in the water  
It's coming for you  
Necessary in the water  
It's coming for you  
Yeeah, ooh, yeeah

It's my home  
We were old enough to see  
That the gods were spinning roses  
Down from golden jubilee  
I do believe that something's happening to me

Must be something in the water  
It's coming for you  
Necessary in the water  
It's coming for you  
Yeeah, ooh, yeeah

Won't somebody hold me close  
For the time it takes  
Is inevitably rolling it  
Drifting in my boat

So the man on the water said  
One day this all will end and you'll be dead  
So I'll undertake my time  
With the perception on my mind  
I'll be fine

We were old enough to see  
That the gods were spinning roses  
Down from golden jubilee  
I do believe that something's happening to me

Must be something in the water  
It's coming for you  
Necessary in the water  
It's coming for you  
Nooo noo, nooo, nooo

Necessary in the water  
It's coming for you  
Necessary in the water  
It's coming for you  
Necessary in the water  
It's coming for you

For you, for you, for you
