

Muscle

Boy & Bear

Lying on your back, it's strange
How the world becomes flat?
And I smile to the aftermath honey
My best's been had
And I found to perfect my range
That I'm better off facing the hurt
But it's turning out in time
I'm only human, you know
So listen carefully I don't have long to speak

It's alright
'Cause baby I'm best on track
When there's nothing left of me
I would have faced that ledge a thousand times
But then again words are cheap
I'll muscle it out
Just muscle it out now

Caught in the afterglow
I'm living off locusts and light
But don't be alarmed
It's only a temporary fix you see
And I saw a sign from the underworld
It came in the form of a dog
So I followed it 'round
But turns out I was the stray
Just listen carefully
You'll hear the ocean speak

It's not right
But baby, we bled our stripes
And please believe me when I say
I would have faced that ledge a thousand times
But never did a foot once stray

Hey I might be human, but I'm proud of that fact
I promise it'll be OK
We'll muscle it out
Just muscle it out now
I'll muscle it out
Just muscle it out now

And it's alright
'Cause baby I'm best on track
And nobody got shit on me
I would have faced that ledge a thousand times
But babe, who gives a fuck if we
Keep having to push ourselves now one last time
I promise it'll be OK
We'll muscle it out
Just muscle it out now
We'll muscle it out
Hmm, just muscle it out now

We'll muscle it out
Hmm, just muscle it out now
