

Showdown

Boy & Bear

Where did it go?
What happened to the enabler?
I wanna know, but your talking too slow

Cause I could be all the right things,
I could be on the right track,
I could be all the right things but maybe I want it too soon

I'm gonna be, lit up and over the street sign
Meadows of green, I wanna know what they taste like

Cause I could be all the right things,
I could be on the right track,
I could be all the right things but maybe I want it too soon

I'm letting go, oh and I follow the arrow too long
I'm taking over, oh let it be said they where wrong
I've been thinking it's been colder, we're moving the air in yo
ur lung
So whats the point man, so be honest be honest with me
I've been thinking on my...

Say something true, say something I can believe in
There's fire in you, but my body moves like a cannon ball

I could be all the right things,
Yeah I could be on the right track,
I could be all the right things but I'm losing patience

I'm letting go, you better be able to run
And watch your showdown, it's all that you'd ever begun
See I've been thinking it's been colder, so give me the air in
your lung
So whats the point man, so be honest be honest with me
I've been thinking on my...
