

# Telescope

Boy & Bear

Just my luck  
I found a place high amongst the constellation  
Can I call you up  
I've been meaning to tell you all about the exchange

So darling it's inspired  
What a struggle can do  
Over water under fire  
It's got nothing on you

It's a challenge though  
But I'm convinced there's a second key  
'Cause through the telescope  
I saw Simon and Peter and John on the hill

So darling you've been trying

To discover it too  
Over water under fire  
We got nothing to lose

Oh  
I've adjusted all my dreams for something slow  
And it's a softening that age has taught me well  
For the things I cannot change I must let go

And darling it's inspired  
What a struggle can do  
Under water over fire  
It's got nothing on you  
I might be wounded  
I might be tired  
But that much is true
