

## Tin Man

## Boy & Bear

You were dancing 'til the needle broke  
Back and forth 'til the music stopped  
There was lightning  
It was frightening

And the deficit wasn't all that clear  
Back and fourth 'til the music stopped  
There was lightning  
There was lightning

I got that leopard soul  
I got the taste for liver  
I got bends and bows

But the medicine made it all so clear  
I watched a fox take the rabbit's luck  
In the lightning  
It was frightening

Take me on my best day  
Scratching at the callous of chemistry  
Time doesn't lie, it's a drug  
But you never did disappoint me if I didn't win

Moving over quicksand  
There was a time I looked for danger  
But the test of the tin man rivals with nothing

Was always thinking of everything now that I wouldn't give  
Deep down underground  
This sounds like nothing that I wouldn't give  
Was a test of might, turn around, sound bite  
Sounds like nothing that I wouldn't give  
There's nothing that I wouldn't give

Take me on my best day  
Scratching at the callous of chemistry  
Time doesn't lie, it's a drug  
But you never did disappoint me if I didn't win

Moving over quicksand  
There was a time I looked for danger  
But the test of the tin man rivals with nothing

No, this is not the start  
This is nowhere near the end  
I gotta hold that line of sight  
Emboldened by the fight  
This is not the start  
This is nowhere near the end  
I'm in a holding pattern right  
This test of all my might

You were dancing 'til the needle broke  
Back and forth 'til the music stopped  
There was lightning  
It was frightening

And the deficit wasn't all that clear  
I watched a fox take the rabbit's luck  
In the lightning  
It was frightening
