

Tripping Over Time

Boy & Bear

Just another day, getting older
Wandering round in the sun
And I'm not afraid of the unknown now
Look what I found
Just another day, getting older
And I don't wanna wait anymore
Got the world off my shoulders now
Look what I found

Tripping over time (Over)
Oh, I like to think I got this now
Maybe it's a sign (Father)
Come see what I found

Just another day, getting older
Wandering round in the sun
And I'm not afraid of the unknown now
It's too much fun

Tripping over time (Over)
Oh, I like to think I got this now
Maybe it's a sign (Father)
Come see what I found

Falling through the night
Oh, I felt the room spinning round
Saw the finish line
Come see what I found
Falling through the night
Oh, I felt the room spinning round
Saw the finish line
Come see what I found

Just another day, getting older
Wandering round in the sun
And I'm not afraid of the unknown now
It's too much fun

Tripping over time (Over)
Oh, I like to think I got this now
Maybe it's a sign (Father)
Come see what I found

Falling through the night
Oh, I felt the room spinning round
Saw the finish line
Come see what I found
