

To be fair I found it strange
Is the whole romance of patience all in vein
It's just an awkward phase
But then I never really knew just what to say

Now that the coast is clear
You look back at stars that got you here

It was in slow-mo
The vertigo
Just try to keep staying upright
Cos there's an art to dancing on your own

Cos it's a free fall
The cannon ball
You'd be kicking yourself to miss this
Then again we'll probably never know

I never saw through the inevitable lies
I should have known better but never had time
It's the feather on feather endeavour to run wild
But your better off looking the past in both eyes

I was in slow-mo
The vertigo
Just try to keep staying upright
Don't fear for dancing on your own

Cos it's free fall
The cannon ball
You'd be kicking yourself to miss this
Gotta learn to listen to the heart

I was in slow-mo

To be fair I find it strange
Is there any chance of growing up again
I'm in an awkward phase
But then I never really knew just what to say

I was in...

I was in slow-mo
The vertigo
Just try to keep staying upright
There's an art to dancing on your own

Cos it's free fall
The cannon ball
You'd be kicking yourself to miss this
Then again we'll probably never know

I was in slow-mo
The more I know
The less I keep trying to fight this
There's an art to dancing on your own
