

# Outside The Box

Boy George

You're rolling me like a dice  
You're spinning me like a roulette wheel  
Those shoes with that dress, some would call it crazy  
But you have a way about you, that's what they all say about you  
First you were nothing, now you're absolutely everything  
I broke my back, carrying this relationship

You and me, rolling like Bonnie and Clyde  
My hair in the wind on the back of your motorbike  
Laughing lavishly

"Meet me outside the box"  
That's what you said, remember?  
"Meet me outside the box"  
That's what you said, remember me?  
(Outside the b-)  
(Rather remember me, you and me are changing)  
Remember me?  
(Outside the box)  
(Rather remember me, you and me are changing)

So many years of vitriol and hatred  
She broke the camel's back when she called him overrated  
"You know the price of everything and the value of nothing"  
He said as she smoked her cigarette  
Possibly French  
But she can't even pay the rent

You and me, rolling like Bonnie and Clyde  
My hair in the wind on the back of your motorbike  
Laughing lavishly

Meet me outside the box  
That's what you said, remember?  
Meet me outside the box  
That's what you said, remember me?  
Remember me?  
(You and me are changing)

She broke her Prada heel  
Right there on the stairs  
She looked at him for sympathy  
But he didn't care  
(Rather remember me)  
I don't know when it happened  
(You and me are changing)  
But it did  
(Rather remember me)  
Outside the box  
(You and me are changing)  
Meet me outside the box

Meet me outside the box  
That's what you said, remember?  
Meet me outside the box  
That's what you said, remember me?  
Meet me outside the box

That's what you said  
(Outside the b-)  
When you gonna meet me?  
Be so good to meet me  
(Outside the box)  
When you gonna meet me?  
Fall in love completely
