

# Them There Crows

Boy George

When your feet spill  
Onto the dance-floor  
In your brand shoes  
Cock of the hoop

I can tear a piece out of you  
You can tear a piece out of me  
Or you could stand there  
Shaking the gossip tree

Stay in the moment  
Stay in the moment  
Stay in the moment please

Bring your anger to its knees  
Retrograde in Mercury

Them there crows  
What they know  
Them there crows  
Picking at my bones

Them there crows  
What they know  
Them there crows  
Picking at my bones

You can tear a piece out of me  
I can tear a piece out of you  
Or you can just stand there  
Shaking the gossip tree

Let me hear you say  
Hallelujah queen  
Let me hear you say  
Hallelujah queen

Them there crows  
What they know  
Them there crows  
Picking at my bones

Hey Jimmy, turn up the bass

She's a strange bird  
I wonder what she does at night  
She's a strange bird, she's a strange bird  
Everything politicized

Them there crows  
What they know  
Them there crows  
Picking at my bones

Them there crows  
(Picking at my bones, picking picking picking at my bones)  
Picking at my bones

Them there crows  
What they know  
(Picking at my bones)

Them there crows  
(She's a strange bird)  
Picking at my bones  
(Picking at my bones)

Everything politicized
