

Where Are You Now (When I Need You)

Boy George

I'm right where you found me
Someone left me on the street
Life moving around me
I said that I could not be beat
I said I was lonely
On my own I could not stand
You said ain't you only
Everybody's got it bad
Why talk about it
When you know you're gonna lie
Why talk about it
You can't even give me a reason why
Where are you now
When I need you?
Where are you now
When I need you?
Where are you now
When I need you?
I said I was lonely
On my own I could not stand
You said ain't you only
Everybody's got it bad
Life's moving around you
Everybody's on the street
Those beggars that found you
They're the ones that say defeat
They do
Why talk about it
When you know you're gonna lie
Why talk about it
You can't even give me a reason why
Don't talk, don't ever talk about it
Don't talk, don't ever talk about it
Don't talk, don't ever talk about it
