

# YOU

Boy George

Are you afraid  
Of what you know or what you don't know?  
When the truth gets misled  
Now I'm the one with no soul

I will clear a space for you to fall  
Back down to earth like a know it all

When you go (when you go, when you go)  
Will I be the last to know?  
When you leave (when you go, when you go)  
For something that your mind conceived

Are you afraid  
Of what you said or what you did not say?  
There'll be no more talking here  
As we wipe away these thirty years

I will clear a space for you to fall  
Back down to earth like a know it all

When you go (when you go, when you go)  
Will I be the last to know?  
When you leave (when you leave, when you leave)  
For something that your mind conceived

I will clear a space for you to fall  
Back down to earth like a know it all  
Don't you know you're a know it all?

When you go (when you go, when you go)  
Will I be the last to know?  
When you leave (when you leave, when you leave)  
For something that your mind conceived  
When you go (when you go, when you go)  
Will I be the last to know?  
When you leave  
For something that your mind conceived
