

AMNESIA

Boy In Space

There's a house on the hills
And it knows who you are
Sold your soul for a pill
To see how it could feel

Dive into your green eyes
Don't know what I will find
There is pain in your heart
Somebody tore you apart

Look into the blinding light
Too ease your mind
Leave it all behind

Run your fingers down my spine
You sending signs
Hold me through the night

Yeah

Woke up it felt like a fever
Said her name it was Sativa
Last night was surrounded by creepers
Woke up and it felt like amnesia

Like amnesia
Felt like amnesia

Woke up it felt like a fever
Said her name it was Sativa
Last night was surrounded by creepers
Woke up and it felt like amnesia

In the house on the hill
Trippin on potion still
I don't even know what's real
Tryna get rid of demons
Shotgun with Elon
Tell me how it feels

(You don't care if you don't love at all)

Look into the blinding light
Too ease your mind
Leave it all behind
Run your fingers down my spine
You sending signs
Hold me through the night

Woke up it felt like a fever
Said her name it was Sativa
Last night was surrounded by creepers
Woke up and it felt like amnesia

Like amnesia
Felt like amnesia

Woke up it felt like a fever
Said her name it was Sativa
Last night was surrounded by creepers
Woke up and it felt like amnesia

(Woke up and it felt like amnesia)
(Woke up and it felt like amnesia)
