

## Lean On

## Boy In Space

Some nights I think I hear you when the wind blows  
I'm slipping in and out of sleep by the window  
And we sing

Ooh-ooh-ooh-ooh  
Now we're riding with the roof down  
Ooh-ooh-ooh-ooh-ooh-ooh

We can find love inside of your car  
Drive down to following stars  
I don't mind stayin' in love when it's dark  
With someone to lean on  
We can dance on the side of the street  
Cut shapes and make our feet bleed  
Sun comes up and we go to sleep

By your side and I do remember, yeah  
Road tripping on the mix tape I gave her, uh  
And we sing

Ooh-ooh-ooh-ooh  
Now we're riding with the roof down  
Ooh-ooh-ooh-ooh-ooh-ooh

We can find love inside of your car  
Drive down to following stars  
I don't mind stayin' in love when it's dark  
With someone to lean on  
We can dance on the side of the street  
Cut shapes and make our feet bleed  
Sun comes up and we go to sleep

(We go to sleep)  
(Someone to lean on)

Ooh-ooh-ooh-ooh  
Now we're riding with the roof down  
Yeah-ah, yeah-i-yeah-ah  
And now I'm sitting shot...gun

We can find love inside of your car  
Drive down to following stars  
I don't mind stayin' in love when it's dark  
With someone to lean on  
We can dance on the side of the street  
Cut shapes and make our feet bleed  
Sun comes up and we go to sleep

(U-woah-oh) (uh-uh-ah, uh-uh-uh-uh)
