

PSYCHO

Boy In Space

It's just life though
We're in a cycle
Just keep your eyes closed
It's like our minds controlled by
A psycho, yeah I'm psycho
Stuck in escape room
Just tryna find my way out

Nights turn into daydreams
On the same street where you left me, yeah
Same show stuck on repeat
Are you lonely? Think you might be

They got eyes in the sky
We're just passing the time
We pretend that we're fine
Now we're burning inside

Don't you feel so alive
Trapped inside, yeah

It's just life though
We're in a cycle
Just keep your eyes closed
It's like our minds controlled by
A psycho, yeah I'm psycho
Stuck in escape room
Just tryna find my way out

It's just life though
We're in a cycle
Just keep your eyes closed
It's like our minds controlled by
A psycho, yeah I'm psycho
Stuck in escape room
Just tryna find my way out

Torn feet, I got snakebites
Walk with the blind, trying to hide
Free me from these dark nights
Tell me sweet lies, say that we'll be alright

They got eyes in the sky
We just passing the time
We pretend that we're fine
Now we're burning inside

Don't you feel so alive
Trapped inside, yeah

It's just life though
We're in a cycle
Just keep your eyes closed
It's like our minds controlled by
A psycho, yeah I'm psycho
Stuck in escape room
Just tryna find my way out

It's just life though
We're in a cycle
Just keep your eyes closed
It's like our minds controlled by
A psycho, yeah I'm psycho
Stuck in escape room
Just tryna find my way out
