

Remember Me

Boy In Space

Stuck in my head like melodies
Can't get you out no remedy
Wish I could wipe my memory

Heavy heart since I met ya
In my head heavy metal
Caught me by surprise
Late night Uber just to get a tattoo

You're a foot I'm a pedal
I'm a dog in your kennel
But then I don't mind
It's a ghost town but I pass through

Wish I left you in the dust to spend your time
So there's no chance to run into you down the line

But when I think about you, I just get so high
I've had these dreams about you
But I know they won't come true

Stuck in my head like melodies
Can't get you out no remedy
Wish I could wipe my memory

And I will burn like gasoline
Just light the match I'll be your fiend
And when I'm gone remember me
Remember me

Stuck in my head like melodies
Can't get you out no remedy
Wish I could wipe my memory

And I will burn like gasoline
Just light the match I'll be your fiend
And when I'm gone remember me
Remember me

Empty room at a motel
4 walls for me and I
In an endless night
Tears run' dry by the fire
I wish I left
You in the dust to spend your time
So there's no chance to run into you down the line

But when I think about you, I just get so high
I've had these dreams about you
But I know they won't come true

Stuck in my head like melodies
Can't get you out no remedy
Wish I could wipe my memory

And I will burn like gasoline
Just light the match I'll be your fiend

And when I'm gone remember me
Remember me

Stuck in my head like melodies
Can't get you out no remedy
Wish I could wipe my memory

And I will burn like gasoline
Just light the match I'll be your fiend
And when I'm gone remember me
Remember me
