Save Me

Boy In Space

All the treetops turn grey so it looks like they're dead
Just like how it feels in my head
All the blue skies through my eyes, they look kinda red
Ever since you left me for dead, yeah

Nights at the dock
We used to get down skipping rocks, yeah
Cup after cup
Still can't forget Paris

Save me, somebody please just save me
Tryna ease my brain with chemicals inside my lungs, yeah-yeah
And daisies don't grow around me lately
Somebody just get me off this dirty parking lot, uh-uh-uh
Somebody just save me, save me, save me
Kinda been low lately, always rainy
Save me, somebody please just save me
Standing with a hole right through my chest like I got shot

All the stoplights yellow and they never turn green
I'm stuck and it's all so obscene, uh, yeah, hey
Wasted all night, threw up so lost my appetite
Something in my head just ain't right

Nights at the dock
We used to get down skipping rocks, yeah
Cup after cup
Still can't forget Paris

Save me, somebody please just save me
Tryna ease my brain with chemicals inside my lungs, yeah-yeah
And daisies don't grow around me lately
Somebody just get me off this dirty parking lot, uh-uh-uh
Somebody just save me, save me, save me
Kinda been low lately, always rainy
Save me, somebody please just save me
Standing with a hole right through my chest like I got shot

Somebody just save me, save me, save me
Kinda been low lately, always rainy
Save me, somebody please just save me
Standing with a hole right through my chest like I got shot
