

Sway

Boy In Space

Roll up your windows, in your beat-up car
I heard it's raining wherever you are
I close up my curtains, I can't stand the stars
It's only here tonight

You're watching TV, something 'bout crime
While I'm brewing coffee just to get by
Stare into nothing, I think of your smile
Tryna kill time, oh, yeah

I wanna sway with you, spend little days with you
Maybe you want that too, hmm
My blood is churning, I'm trapped in my skin
I'd do the impossible if only I could grow wings
Baby, it's simple, the smallest of things
I need you next to me like a heart needs a beat
No matter how much I want it to be
The truth ain't a thing you can cheat

This room is a prison, I wait for your call
I'm on the edge and I'm ready to fall
Your eyes are the ocean where I wanna drown
But I'm stranded on the drive home

I wanna sway with you, spend little days with you
Maybe you want that too, hmm
My blood is churning, I'm trapped in my skin
I'd do the impossible if only I could grow wings
Baby, it's simple, the smallest of things
I need you next to me like a heart needs a beat
No matter how much I want it to be
The truth ain't a thing you can cheat
I wanna sway with you, spend little days with you
Maybe you want that too, ooh
