

Take It Easy

Boy In Space

Drinking, talking, lying up
Seeing stars reflected in red cups
We fall in and out of love
Just to wind up on the same bus

And I don't wanna be the one who's gonna point it out (But I know, yeah, I know)
You've got a tendency to love someone to let 'em down (So when you let me down)

Take it easy, break me or keep me
I'll be any shape that you need me
Tease me, please me, just to release me
Drove all night to be underneath your bones
They were shaking, you were cold
Guess we both need someone to hold
Is it the worst thing? I don't know
But when you go

We've been spinning out these wheels
Just along for the ride and cheap thrills
Drop me off and leave me here
Always counting on the "this time next year"

'Cause I don't wanna be the one who's gonna drag it out (No, I don't, no, I don't; ooh), no, no
I don't need you, I don't blame you when you let me down
Let me down (Let me down)

Take it easy, break me or keep me
I'll be any shape that you need me
Tease me, please me, just to release me
Drove all night to be underneath your bones
They were shaking, you were cold
Guess we both need someone to hold
Is it the worst thing? I don't know
But when you go

Take it easy
Just take it easy
Take it easy
Just take it easy

And I don't wanna be the one who's gonna point it out, no
You've got a tendency to love someone to let 'em down, let me down

Take it easy, break me or keep me
I'll be any shape that you need me
Tease me, please me, just to release me
Drove all night to be underneath your bones
They were shaking, you were cold
Guess we both need someone to hold
Is it the worst thing? I don't know
But when you go

Take it easy
Just take it easy
