

## Therapy

### Boy In Space

It's hard feeling like a vertigo  
My heart never seems too let you go  
But my friends say it gets better with time  
Hmm-mm-mm, yeah

These scars, hard to put them in a letter  
But I hope it will feel a little better  
Tryna think of something clever that rhymes

Skipping rocks upon the water  
Only makes it harder too (Hmm-mm-mm, hmm)  
Smoking trees up by the station  
Just to ease my brain off you-hoo-hoo

Hate me, kill me on the inside  
Lately, I've been 10 feet underground  
Kinda hard to breathe, thought I'd let you know  
Make me pour out of my eyeballs  
Crazy, acid makes it hard to see  
Maybe I'm in need of therapy

I've heard that you found another guy  
How does it feel having someone by your side? Nah  
The mirror might get lonely sometimes

Skipping rocks upon the water  
Only makes it harder too (Hmm-mm-mm, hmm)  
Smoking trees up by the station  
Just to ease my brain off you-hoo-hoo

Hate me, kill me on the inside  
Lately, I've been 10 feet underground  
Kinda hard to breathe, thought I'd let you know  
Make me pour out of my eyeballs  
Crazy, acid makes it hard to see  
Maybe I'm in need of therapy (I'm in need of therapy)

Kinda hard to breath, thought I'd let you know

Maybe I'm in need of therapy
