

# Til' The End

Boy In Space

Wooh

I can see the trees from the rooftop  
I've been tryna cry but it hurts my eyes  
Always I'll be yours if you wanna  
O-oh, ho-oh, he-oh  
Your lips stay red like sweet wine  
But you only mix with the purple  
Your eyes lookin' like pools of water  
Thank God, mom an' dad for makin' a daughter

Tired of bidin' my time  
Driving' to the North side  
Only took ya nothin' at all  
Always seein' a new fire  
Body's wrong, it looks right  
Reelin' all ta mess me up  
Yeah

Part of me will never mend  
Broken heart, night again  
I only hope that we can still be friends  
That we can be together til' the end  
Dropped off, remember when  
You looked down and took my hand  
You said I really hope we'll still be friends  
That we can be together til' the end

Running through my hair like, "Should I?"  
Only ever think when I drink but  
I'm still drowning in Devil's water  
Weeks grow but I'm still rippin' my heart out

Tired of bidin' my time  
Driving' to the North side  
Only took ya nothin' at all (Nothin' at all)  
Always seein' a new fire  
Body's wrong, it looks right  
Reelin' all ta mess me up  
Wooh  
Yeah

Part of me will never mend (No...)  
Broken heart, night again  
I only hope that we can still be friends  
That we can be together til' the end (til' the end...)  
Dropped off, remember when (Remember when...)  
You looked down and took my hand  
You said I really hope we'll still be friends  
That we can be together til' the end

Woah-a-oh  
Be together til' the end  
O-o-oh  
That we can be together til' the end
