

Don't Remind Me

Boy Meets Girl

at the heart of me I will always be sorry you slipped right through
the tear in my soul where the rain comes in
even with your love I couldn't try again

even with your love I couldn't try

it's the little things that mean everything that's why I'm missin you
your soap in the shower our friends on the phone
it feels like a funeral quiet and alone

that is why I'm missin you

don't remind me of the things I didn't do
it always comes around to losin you
can't think about it cause it only hurts again
if I had it to do over baby maybe I could bend
don't remind me
don't remind me
wanna put it behind me
don't remind me

I'm remembering what you said to me I know tonight it's true
these minutes and hours are precious and few
hold on to whatever love gives to you

that's what you said but I didn't hear you

don't remind me of the things I didn't do
it always comes around to losin you
can't think about it cause it only hurts again
if I had it to do over baby maybe I could bend
don't remind me
don't remind me
wanna put it behind me
don't remind me

why
I'm missin you tonight
I didn't even try
I'm leavin you behind

don't remind me of the things I didn't do
it always comes around to losin you
can't think about it cause it only hurts again
if I had it to do over baby maybe I could bend
don't remind me
don't remind me
wanna put it behind me
don't remind me
