

My Desire

Boy Meets Girl

I'm tellin you this is my desire
cause I know we could start a fire
take this feeling and let it fly
no holdin back
no askin why

gonna find my way
gonna break the rules
throw away the book cause I've been a fool
wastin time like it was money
walkin when I could'a been runnin
now I feel like runnin

I'm tellin you this is my desire
cause I know we could start a fire
take this feeling and let it fly
no holdin back
no askin why

you know how it is
wanna be someone else
wanna be something better bigger than yourself
tear down these walls and let it in
outside my mind and outside my skin
wanna feel like I'm free again

I'm tellin you this is my desire
cause I know we could start a fire
take this feeling and let it fly
no holdin back
no askin' why

wanna shine like a star do you know what I mean
wanna light up the dark are you here with me?
are you here with me?

only wanna radiate and spark
can you hear me speak to your heart
don't you wanna jump in your car
and drive like there's no tomorrow
like there's no tomorrow

you know how it is
