

Honey

boy pablo

The flowers wither
And the clouds grow bigger
Up in the garden alone, I'm freezing but it's fine
'Cause I'm thinking of you
And all the things we could do
Running as fast as I can, glad I forgot to tie my shoes

Falling isn't really that bad
If it's for you
Your lips, your blush, your eyes, your touch

Baby, you are really something else
'Cause I don't think I have smiled like this before
When I spend my time with you it tends to stop
Honey, being around you is all I need
Baby

Don't worry 'bout me
It's not as cold as it seems
So good to be the one who keeps you warm
These days, we're all good though we're walking under clouds, honey
Most of the time
I can't believe my own eyes

Lookin' out, it feels like a dream
Please, stay right here
Your lips, your blush, your eyes, your touch

Baby, you are really something else
'Cause I don't think I have smiled like this before
When I spend my time with you it tends to stop
Honey, being around you is all I need
Baby
