

# Never Cared

boy pablo

No, I never cared 'bout all that  
You were never there when I called back  
I left all the walls black, I left my door unlocked if you wanna fall  
back

What if everyone used to think that  
We would never cross roads and look back  
On all our favorite times that we used to drive back home  
Never had the chance to do that

I wish that I had more to say  
I'll keep it for another day  
A new light that lead you away  
Another time, we'll be okay

Yeah, I left too quickly, I mean, my mind was in a rush  
Is there a life here for us that goes beyond just a crush  
That goes beyond these borders, around these corners  
All these rules they got me, I always hated orders

No, I never cared 'bout all that  
You were never there when I called back  
I left all the walls black, I left my door unlocked if you wanna fall  
back

What if everyone used to think that  
We would never cross roads and look back  
On all our favorite times that we used to drive back home  
Never had the chance to do that

Never had the chance to do that  
Never had the chance to do that  
Never had the chance to do that

But I swear we'll get another chance  
You got more of me than I ever planned  
There is more to life than the sand  
But every time we got close you ran

No, I never cared 'bout all that  
You were never there when I called back  
I left all the walls black, I left my door unlocked if you wanna fall  
back

What if everyone used to think that  
We would never cross roads and look back  
On all our favorite times that we used to drive back home  
Never had the chance to do that
