

## Same Old Song

**Boy**

Then what's behind to look ahead Remember what my father said "  
Put one foot forward then the next" A step ahead of the rest

And we singin' that same old song And we all just singing along

(You gotta believe)

You gotta believe it, live it on, you got me singing your song  
You gotta believe it, live it on, you got me singing your song

(Same old song)

I know it's hard to think again But even harder to forget

And we singin' that same old song And we all just singing along

(You gotta believe)

You gotta believe it, live it on, you got me singing your song  
You gotta believe it, live it on, you got me singing your song

(Same old Song)

And we singin' that same old song And we all just singing along  
(Repeat \*1)

You gotta believe it, live it on, you got me singing your song  
(Repeat \*4)

(Same old Song)
