

# All Night

Boyish

A rosy glance  
In my direction caught me  
Whole body whole attention  
A cold dance  
No surprise  
Can't stand to watch you follow  
His steely lawn chair eyes

I know you're gone but  
I wanna touch you baby  
I wanna give it to you all night long

All night long baby  
All night long baby  
You'll say awoooooo  
You'll say awoooooo  
All night long baby  
All night long baby  
You'll say awoooooo  
You'll say awoooooo

The boy's a tramp  
Can't seem to work his shit out  
He's always clinging to his old girl's name  
He's a pout  
And she's a helpless race car  
I wanna run her engine  
Straight home

I know you're gone but  
I wanna touch you baby  
I wanna give it to you all night long

All night long baby  
All night long baby  
You'll say awoooooo  
You'll say awoooooo  
All night long baby  
All night long baby  
You'll say awoooooo  
You'll say awoooooo
