

Congratulations

Boyish

Congratulations
You fucked it all and now you're alone
When you told me
I thought it was the end of the world

I wanna tell you I'm scared
I think you know it
I wanna tell you I'm scared of the way you're holding me so fuc
king close
Remember when I dared you
Remember when I cared for you
Sometimes I think I still do

My brain is fuzzy
And all I think about is that night
Your friend's party
You pushed me in the pool and I cried

I wanna tell you I'm scared
I think you know it
You're the one I can tell
You know all about it
Remember when I dared you
Remember when I cared for you
Sometimes I think I still do

You don't understand every word, every question mark
You think you changed the world
Got me medicated for a start
I don't feel much different
I'm sleeping off an afternoon
If this is all a joke at least it's over soon

I wanna tell you I'm scared
I think you know it
You're the one I can tell
You know all about it
Remember when I dared you
Remember when I cared for you
Sometimes I think I still do

Sometimes I think I still do
Sometimes I think I still do
