

## Doomscroller

Boyish

It seems you don't mind  
The negative company  
Doomscroller please, notice me  
And come up for air  
Did you see through  
My arrogant attitude  
A scratch on the door  
Nothing more  
Press your ear up to listen

I've seen it all before  
Troubled girls playing God  
What are you on?  
Something's wrong still  
It's nice to be noticed  
You never say much  
Call it quiet  
Don't you wanna be noticed?

A hopeful in lapse  
There's too much you're wanting  
Septic from here  
If I look at you there's no stopping

I've seen it all before  
Troubled girls playing God  
What are you on?  
Something's wrong still  
It's nice to be noticed  
You never say much  
Call it quiet  
Don't you wanna be noticed?  
You made yourself so sick  
Will you make it?  
I overreacted  
I didn't mean it  
Then you're alone  
Its thrilling and silent  
Oh god I'm starving  
Won't you come out of your room
