

Ghost

Boyish

When I wake it's hard to find
What I did with all my precious time
Wake up just to stay inside
On a TV binge that runs my life

And if I called you would you say that I'm your girl?
Ooh because I miss the way you used to rock my world

You make me feel twisted like the knots in my hair
The garden spider on my shoulder got me tied to my chair

Don't you know it hurts the most
Living like a motherfucking joke
My friends wanna move to New York
But I'm sitting on a bank that's broke

And if I called you would you say that I'm your girl? Oh
Ooh because I miss the way you used to rock my world

At least I've got the morning by the end of the night
So if I'm leaving here alone I know I'll be alright
But if you're still thinking bout me baby give me a sign
If you're ready to let go, I'll leave it all behind

I'm waiting for a reason to get out of this place
I gave my past four years of thinking to some stranger's face
But if you're still thinking bout me baby give me a sign
I'm not thinking very clearly, I can't get you off of my mind

And if I called you would you say that I'm your girl?
Ooh because I miss the way you used to rock my world
Ooh and if I called you would you say that I'm your girl?
