

I Think I Hate It Here

Boyish

Here we go again, another fight at the movies
Why don't we break up if I just hold you back?
And I don't mean to make you feel bad
But I'm looking for someone like you
I wish I was someone like you
What's wrong with that?

I know it's not your fault
You didn't mean to say that
You can't take it back
I bet your boyfriend was pretty in high school
What the hell happened with that?
I'd stay awake to never see you
I wonder if I never see you, would it hurt so bad?

You were the greatest, I could say that
Whatever, I'll play dead 'till you get back
You were the greatest, my mom said that

Why do you hate me so much?
Forget it, I'll fake it 'till I give up
I could be anything, what do you want?

And it's not fair you're not here even when you're here
It's not fair you're not here even when you're here

You were the greatest, I could say that
Whatever, I'll play dead 'till you get back
You were the greatest, my mom said that

Why do you hate me so much?
Forget it, I'll fake it 'till I give up
I could be anything, what do you want?
