

June Bug

Boyish

I've clothes in velvet darling from afar I am just a wet dream
Come closer baby so I can get a feel of how you taste
All we need is a little room for moving
Before we start grooving
What are you choosing?

June bug, you would call me baby if you knew me
You look kind of good, I am kinda lonely
I'm lonely

June bug, you would call me baby if you knew me
You look kind of good, I am kinda lonely
I'm lonely

I pose in satin darling
A red devil in between your sheets
[?] from quiet honey
It's cause I'm holding words between my teeth
All we need is a little room for moving
Before we start grooving
What are you choosing?

June bug, you would call me baby if you knew me
You look kind of good, I am kinda lonely
I'm lonely

June bug, you would call me baby if you knew me
You look kind of good, I am kinda lonely
I'm lonely

June bug, you would call me baby if you knew me
You look kind of good, I am kinda lonely
I'm lonely

June bug, you would call me baby if you knew me
You look kind of good, I am kinda lonely
I'm lonely
