

Prom

Boyish

How's it feel to know
I'm holding on too
Ordinary girl
I wanted you to be mine
She's gonna eat me alive
And if she breaks my heart tonight
It's not fair but it's alright
I'll be kind

In the dark
I could be anyone
And who do you think is the right kind?
If we're gonna die, yeah
It's kissing in front of these lights

"Out in her front lawn
Twirling her baton"
She said
I'm not evil but
I kinda got this desire
It's gonna burn me alive
There's nothing wrong with an ordinary life but
If I don't leave I'll lose my mind
I replied

In the dark
I could be anyone
And who do you think is the right kind?
If we're gonna die, yeah
It's kissing in front of these lights
You and I don't wanna die
But we don't wanna suffer

All of the things I'd do he'd never do for you
All of the things I'd do he'd never do for you
All of the things he did I'd never do to you

I know better
I know you better
